

WHICHEVER WAY YOU LOOK AT IT...
WE HAVE IT **COLOURED**

**TURNING GREAT DOORS INTO
GRAND ENTRANCES**

THE FACTS >

95%

of new retail residential
composite doors are
coloured

75% of consumers would like a colour-matched frame option

70% of installers would want to offer coloured frames across their range

only 25% of fabricators offer colour-matched frames across all door colours

HEARD IT ALL BEFORE? >

John
The spray guys called
to say they will be late
with the frames as they
have lots of work on!

Can you send
another call out
to the sprayers
as it has gone
missing??

Can we do better in
the 10 days lead time
on the painted frames as
I have an installer who
needs to fit next week

The composite frame
has just come back in
from the sprayers and
its been damaged - we
need a remake urgently.

Mrs Smith has
been on about her
composite door and
frame not matching!
Can you arrange a site
visit to look at it?

PROBLEM...

COLORLINE - THE COLOUR FRAME KIT >

- > The ColorLine kits come as an easy-to-assemble door frame solution for composite doors
- > Kits are produced from stock with a guaranteed colour-match to the door colour
- > Delivered direct to your factory

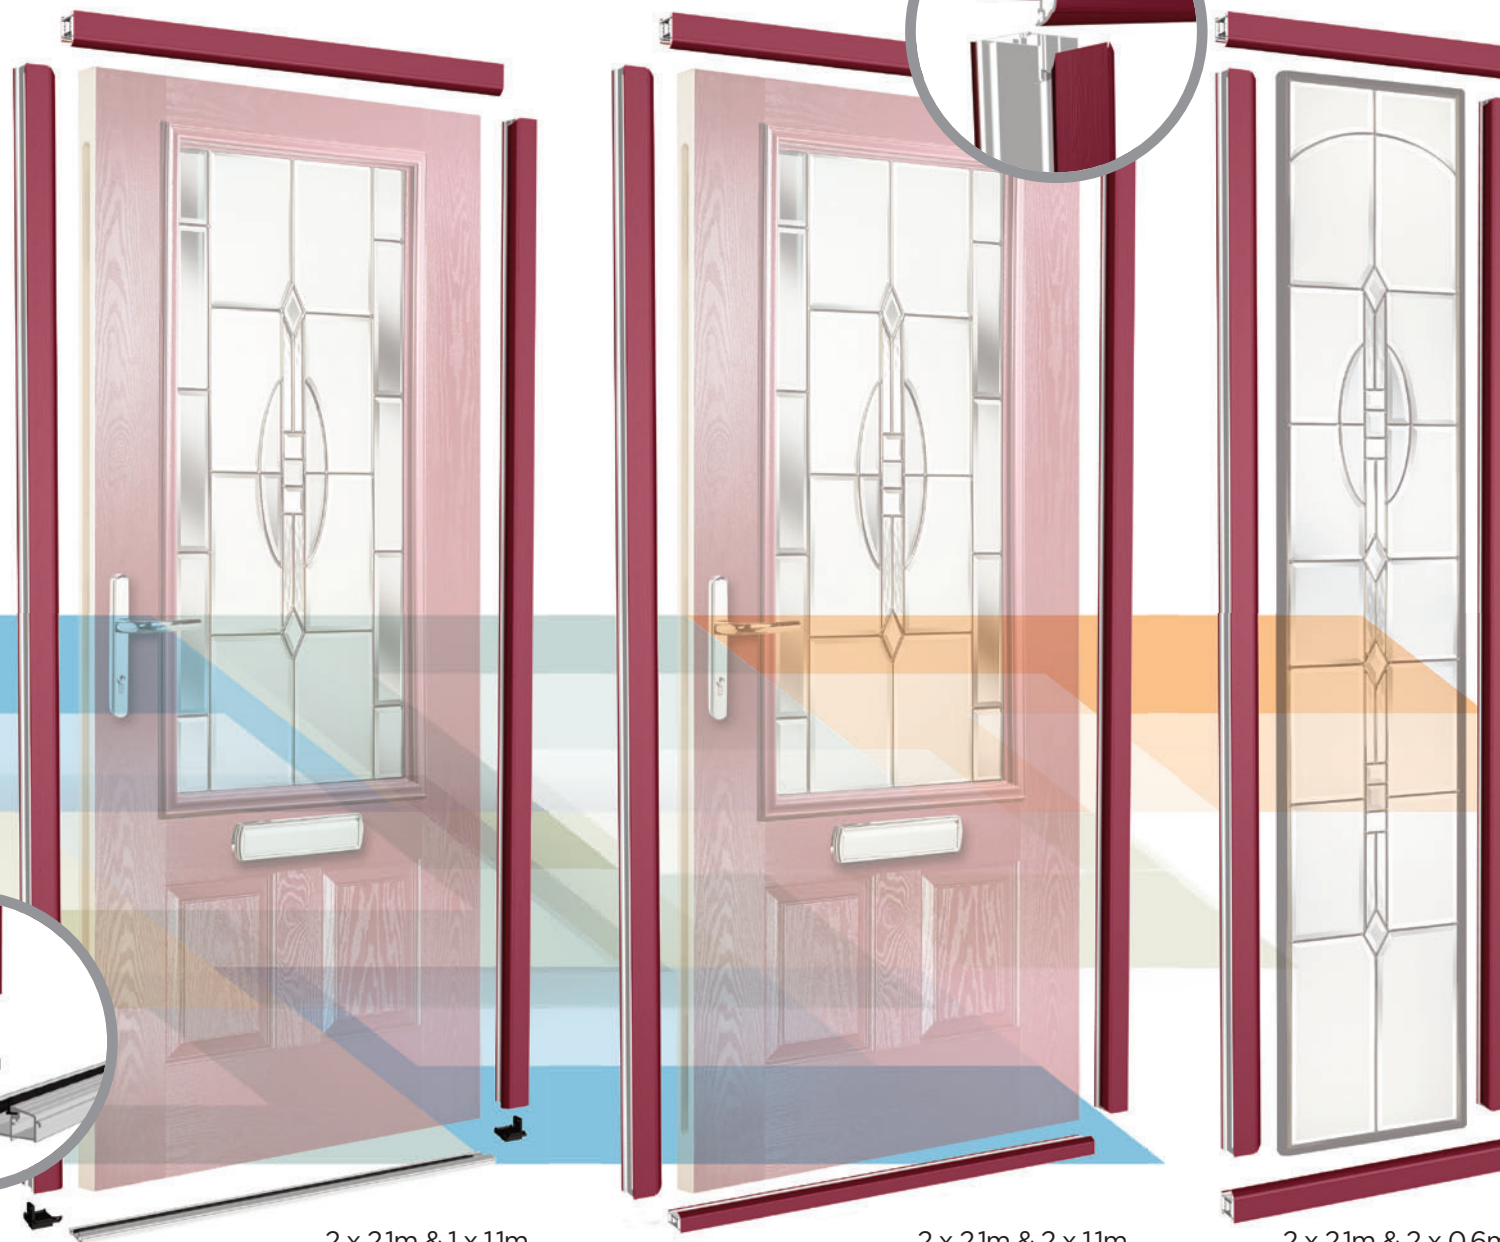

...SOLVED!

**3>DAY
LEADTIME**

KIT OPTIONS >

ColorLine kits are available as a standard 3-part door frame kit, or as a 4-part kit for full PVCu frames or sidelight options. All kits come with the option of end-milled jambs for mechanical jointing. We also offer a full range of accessories including colour-matched cills and add-ons as well as threshold kits.

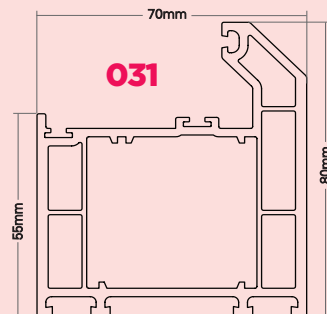

2 x 2.1m & 1 x 1.1m
Low Threshold Cill Option

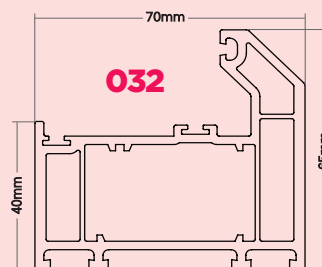

2 x 2.1m & 2 x 1.1m
Standard Cill Option

2 x 2.1m & 2 x 0.6m
Sidelight Option

OUR PROCESS >

All product can be supplied cleated and end-milled for mechanical joints. No 'weld' touch-ups required.

Our rapid drying Schubox® system ensures a hard paint finish and reduced lead times

Profiles are cut to lengths of 2 x 2.1m and 1 x 1.1m - suitable for any composite door size

We paint with ColorSpray GRP - a high-strength paint specifically designed for the PVCu and GRP industries

ColorLine frames are supplied protective wrapped and include any accessories required to assemble the frame

YOUR PROCESS >

Use the jigs to ensure accurate location of the mechanical joint

Simply add the threshold to complete your outer door/sidelight frame

Cut down the ColorLine profiles to the required lengths

Screw the frames together to produce a neat and strong mechanical joint

**25

*ALL IN JUST
25 MINS!*

GUARANTEED COLOUR MATCH >

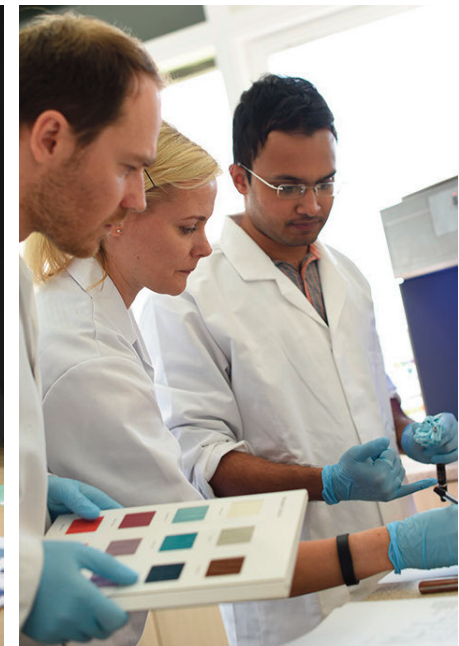

*YOU WOULDN'T ACCEPT THIS ON
YOUR CAR SO WHY SHOULD YOU
WITH YOUR DOOR
FRAME!*

As a paint manufacturer, we have a world class colour laboratory utilising the latest technologies for matching colour. All product is quality control checked by our laboratory technicians before despatch.

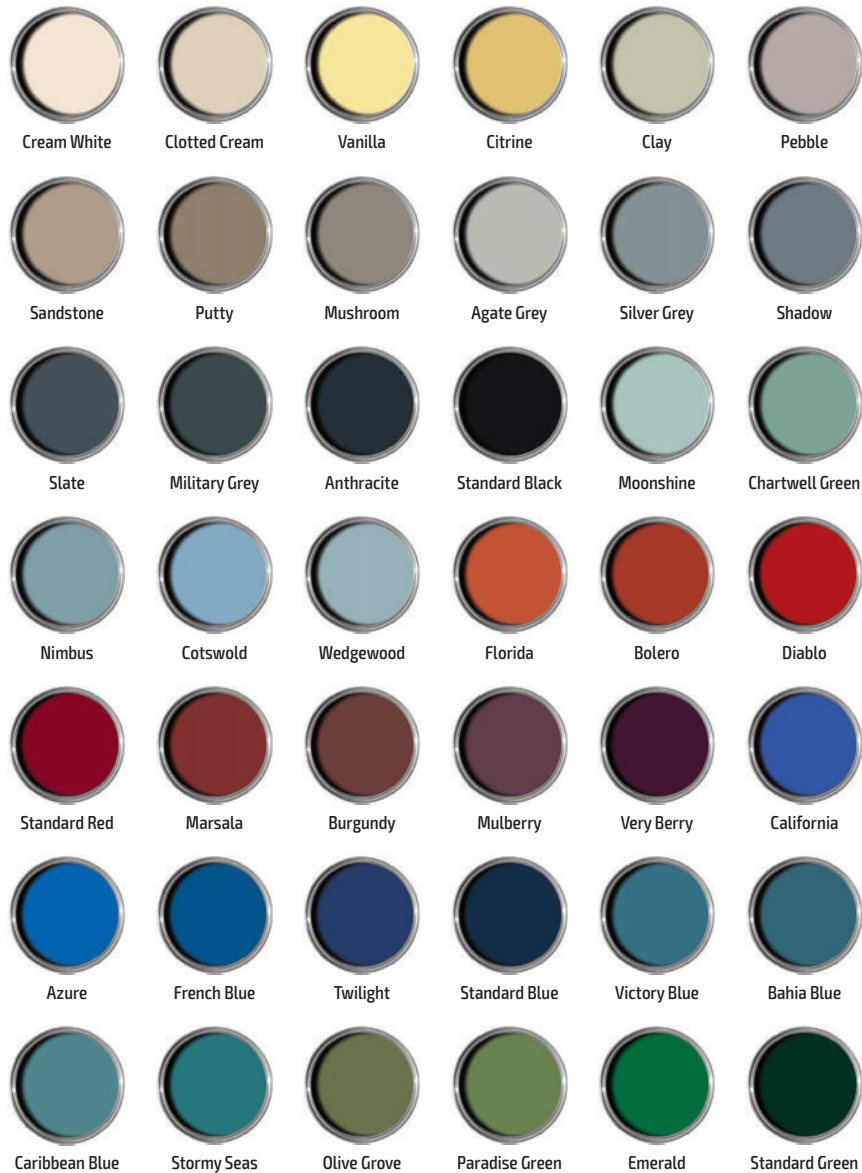

As the leading supplier to the composite door market, nobody supplies more paint to the industry than we do.

When painting PVCu, the base material will affect the finished colour. That is why we use a unique 'tan' woodgrain foil as the base for all ColorLine products.
